

California Sun Dried Apricots

DESCRIPTION Ruby Royal Variety

The Ruby Royal variety is a premium variety that is redder and has plumper flesh than standard apricots. The Ruby Royal apricots are washed, cut and pitted, then carefully laid on redwood drying trays, sulfured (for color retention and as a preservative), and laid in the California sun to dry. The Ruby Royals apricots are removed from the trays, sorted, cut, packaged, and stored. The Ruby Royal apricots used are grown locally in the California San Joaquin Valley and the sun drying process locks in the intense fruit flavors.

QUALITY FACTORS

Color, Flavor	Practically uniform reddish orange characteristic of sun dried Ruby Royal apricots. Typical intense apricot flavor; no spoiled, rancid, or off flavors.	
Defects	Practically free of defects from discoloration, dark units, imbedded dirt, or other foreign material. May contain pit or pit fragments.
